Introduction vii
Committees viii
Conference program ix

ORAL PRESENTATIONS
Session 1
Extreme wind loads and consequences of global climatic change

Extreme surface winds in mid-latitude storms: forecasting and changes in climatology
C.G. Collier, J. Dixon, M.S.J. Harrison, J.R.C. Hunt, J.B.F. Mitchell, D.S. Richardson (Berks, UK) 1
The wind hazard in Great Britain and its effects on road and air transport
A. Perry, L. Symons (Swansea, UK) 29
Windy, wet and Cold Northcott – a year's wind energy monitoring in Corwall
J.A.B. Wills (Middlesex, UK) 43
Pulsed-wire anemometry on rough surfaces, with application to desert sand dunes
I.P. Castro (Surrey, UK), G.F.S. Wiggs (London, UK) 53

Session 2
Wind effects on transportation

Wind effects on ground transportation
R.G. Gawthorpe (Derby, UK) 73
The quantification of accident risk for road vehicles in cross winds
C.J. Baker (Nottingham, UK) 93
Model tests about cross wind effects on containers and wagons in atmospheric boundary layers
I. Krönke, H. Sockel (Vienna, Austria) 109

Session 3
General

Extreme velocities near building faces using Doppler anemometry
A.J. Minson, C.J. Wood (Oxfod, UK) 121
UK-ADMS: A new approach to modelling dispersion in the earth's atmospheric boundary layer
D.J. Carruthers, R.J. Holroyd, J.R.C. Hunt (Cambridge, UK), W.S. Weng (Cambridge, UK, Downsview, Ont., Canada), A.G. Robins (Swindon, UK), D.D. Apsley (Guildford, UK), D.J. Thomson (Berkshire, UK), F.B. Smith (London, UK) 139
The effects of aircraft trailing vortices on house roofs
P.A. Blackmore (Watford, UK) 155

Session 4
General

Experimental observations of the aerodynamic characteristics of urban trees
H.J. Roodbaraky, C.J. Baker, A.R. Dawson, C.J. Wright (Nottingham, UK) 171

Elsevier Science B.V.

Humber Bridge full-scale measurement campaigns 1990–1991
J.M.W. Brownjohn (Bristol, UK), M. Bocciolone, A. Curami, M. Falco, A. Zasso (Milano, Italy) 185
A comparison between the full-scale measured response of Hume Point and that calculated by some predictive methods
J.D. Littler (Watford, UK), P.D. Murphy (UK) 219
Judgement of vortex-induced oscillation characteristics of bluff bodies by applied sound
M. Matsumoto, N. Shiraishi, H. Shirato (Kyoto, Japan), K. Abe, T. Kashima (Tokyo, Japan) 229

Session 6
General

A case study of wind pressure and wind-induced vibration of a large span open-type roof
O. Nakamura (Tokyo, Japan), Y. Tamura (Kanagawa, Japan), K. Miyashita, M. Itoh (Tokyo, Japan) 237
Wind-induced forces on eaves of low buildings
T. Stathopoulos, H. Luchian (Montreal, Que., Canada) 249
Characteristics of mean and fluctuating pressure coefficients under corner (delta wing) vortices
H.W. Tieleman (Blacksburg, USA), D. Surry, J.X. Lin (London, Ont., Canada) 263

Session 7
Solving design problems in wind engineering – state of the art – new challenges

Examples for discussion
G. Heywood (Epsom, UK), L.R. Wootton (London, UK) 277
Invited response and open forum discussion
D.M. Sykes (London, UK) 285

POSTER PRESENTATIONS
Discussion session 1

Wind-related road accidents in England and Wales 1980–1990
J.B. Edwards (Cardiff, UK) 293
Improving the cyclone-resistance of traditional Caribbean house construction through rational structural design criteria
D.D. Prevatt (St. Augustine, Trinidad and Tobago) 305

Discussion session 2

Aerodynamic damping on offshore installations – a comparison of experimental measurements with theory
F.M. Sinclair (Maidenhead, UK) 321
Wind velocities over pitched roofs
R.H. Barnard (Herts, UK), J. Driviere (Paris, France) 345

Free-vibration tests on rigid and flexible roofed cavity models with wall openings
W. Pearce, D.M. Sykes (London, UK) 359
Windloading tests on models of two tension structures for EXPO'92, Seville
D.M. Sykes (London, UK) 371
Wind comfort predictions by wind tunnel tests: comparison with full-scale data
G.Th. Visser, J.W. Cleijne (Apeldoorn, The Netherlands) 385
